NEW INSTRUMENT KIT FOR GASOLINE ENGINES WITHOUT EVC

A new kit of Easy Link instruments is now available for the engines without EVC. The kit is available on all gasoline engines without EVC and has replace the old range of instruments on these.

With the new kit the customer will get the same instruments on a non EVC engine as on the EVC engines with a more modern design and it is much easier to install. These instruments have been available as individual parts before and with the kit they are easier to order and comes with a kit price for all of them.

The kit is available for black or white instruments and contains Engine speed (rpm), Coolant temperature (°C), Oil pressure (bar), Volt, Trim angle and mounting kit for all of them.

Tachometer 0-6000 rpm

Coolant Temp, C Black

Oil Pressure

Voltmeter 12V

Trimmer Analog

Mounting 52 mm/ 85 mm
